Subject: West Lake Reporting

Categories: Green Category

At our next brief, let me know your thoughts about a weekly (at minimum) report to me/Mark from Ron [brackets are responsible managers for furnishing relevant info to Ron; designated reporters will draw on staff for needed info] covering these repeating topic areas:

R7 Superfund activities connected to data refresh/ROD (ahead, ongoing, recommended) [CT]

MDNR/Mo AG/Republic Bridgeton SSE control/management, including contingency planning [RH and CT]

MDNR/MDHSS air data reporting/odor issues/risk comms [Becky/CT/Chris W]

MSD/MDNR leachate system operation, water quality issues [KF]

Electeds, including St L Airport management: inreach to r7, outreach from r7, recent statements [OPA: HT] As an aside, OPA will continue present liaisons with fed (LaT), state (Sarah), local (DK)

MCE/CAG actions, interactions with r7 [DKring] As an aside, DKring will be only POC for CAG; CT only for MCE, unless Heather Navarro requests contact direct with me

ORD SSE analysis [RH]

ORD/USGS groundwater [CT]

Media, conventional and social [Chris W]

FUSRAP/COE/DOE [Audrey, til further directed by KB]

OSWER/NRRB questions/issues [CT/RH]

Julie will put copy of this email with my appt for next brief. She will work with Ron on report format/delivery, should we decide to go ahead.

thx
